

Alejandro Vasquez-Mori

Software Engineer | San Francisco, CA

alejandro.vm@techmail.com | (415) 555-0192 | github.com/avasquez

Professional Summary

Experienced software engineer with 5+ years building scalable distributed systems across fintech and cloud infrastructure. Proficient in Python, Go, and Rust with a strong background in event-driven architecture and DevOps. Passionate about system reliability and developer tooling.

Experience

Senior Software Engineer — Nextera Systems

March 2021 – Present | San Francisco, CA

- Designed microservices architecture serving 2M+ daily active users
- Reduced P95 API latency by 40% through Redis caching layer
- Led migration from monolith to event-driven architecture (Kafka)
- Mentored team of 4 junior engineers; ran weekly architecture reviews

Software Engineer — Patel & Liu Consulting

June 2019 – February 2021 | Oakland, CA

- Built client-facing REST APIs handling 500K+ requests/day
- Automated CI/CD pipeline reducing deploy time from 45min to 8min
- Implemented OAuth2 + RBAC authorization layer for SaaS platform

Education

B.S. Computer Science — UC Berkeley

Graduated May 2019 | GPA: 3.82 | Dean's List
